OB/GYN EMERGENCY DEPARTMENT

Serving Women in All Stages of Life

The Women’s Hospital at Centennial is Middle Tennessee's first and only hospital dedicated solely to the care of women and babies. We offer a wide range of services in addition to our emergency department for obstetric and gynecological conditions, including a neonatal intensive care unit that provides the highest level of care for premature and critically ill infants, and a dedicated unit for mothers at risk for pre-term labor. Whether you are ensuring wellness or navigating pregnancy, our knowledgeable, experienced staff has got you covered from head to toe.

Ease of Access/Privacy
The OB/GYN Emergency Department cares for the special needs and health concerns of women in all stages of life with greater ease of access and privacy than traditional emergency room settings.

Staffing/Location
The newly renovated OB/GYN Emergency Department at The Women’s Hospital at Centennial is staffed 24 hours a day by OB/GYN hospitalists and nurse practitioners and is easily accessible through the main entrance of The Women’s Hospital at 2221 Murphy Avenue.

Specialized Care & Follow-Up
Each patient is seen by a specialist in obstetrical and gynecologic care, which is not always the case in a mainstream Emergency Department. Each patient and her family is provided information on follow-up care and signs and symptoms that may necessitate re-evaluation.

Contact Information
The OB/GYN Emergency Department can be accessed 24-hours a day by calling 615-342-2899
